DISCLOSURE

In most areas of the country, State or Local law does not require that you buy a container to surround the casket in the grave. However, many cemeteries require that you have such a container so that the grave will not sink in. Either a grave liner or a burial vault will satisfy these requirements. Clayton & McGirr Funeral Home makes no presentations or warranties about the protective value of our outer burial containers other than those made by the manufacturer. The only warranties, expressed or implied, granted, in connection with the goods with this funeral service are the expressed written warranties, if any, extended by the manufacturer thereof. No other warranties of merchandising fitness for a particular product are extended by the seller.
